主题: Towing Project -- ITI & Rigid

Dear Mr. Blane Wirth,

Thank you very much receiving my call yesterday, it was very nice to talk to you!

Attached please find our quotation. Meanwhile, to assist you with a quicker decision, we take the liberty to prepare samples specially for Rigid Hitch's evaluation today:

#703016 2" A-Frame Coupler

#708000 Receiver Lock

#705008 Tri-Ball Hitch

The samples will be available and express to you by July 10. Please do feel free to let us know if you want any other preferences. The samples will be free of charge for you. Do you have any international account number to collect the shipment (UPS, DHL, FedEx...)?

While presenting our project to you, we hope to establish our partnership by a brief introduction as below:

Though starting with hardware trading business, ITI has become a wide-scaled manufacturer of many products. Through years of efforts, we are proud to grow up as the foremost manufacturer in China of a most complete line of towing accessories.

ITI sells products through OEM to our customers, while many of them are among the best known and trusted in the industry. These products are innovatively produced to our customers' specific requirements, and then marketed using the customers' particular colors and brand names.

ITI has been serving automotive, marine and industrial market for years under many well-established trademarks. Since you are located in Burnsville, you may just talk to Mr. Bob Lusty in Northern Tool & Equipment directly by phone#: 952-895-6811 for reference information of ITI.

We understand you have been impacted by the steel increases on the steel products. Besides, we believe all distributors of Reese group are now forced to wait for longer deliveries. ITI will be glad if Rigid Hitch could take us as your alternative supplier to back you up under this situation. We look forward to working with your esteemed company and hope to devote our efforts for your long-term development.

Best regards and have a nice weekend!

Dear Blane,

It is very nice to have your e-mail this morning!

Re: Universal Coupler Lock

Sorry that as this design was filed into the patent, we can not offer it at this moment. We hope we can redesign it and quote you later.

Re: PLI

Thank you for the company name with adress. I will work with the insurance company to work out the certificate for Rigid Hitch and will express to you later. Can we do some help on your setup credit form with ITI? Thank you very much to welcome David Wang & Ronna Luo in your office next week.

Best Regards,

Nick Ni

Subject: Additional item to quote

Ronna,
Hope you are doing well and your business is good.
I ask that you please quote on your part number 708006 Universal coupler lock.
Please add it to the quote you sent me on 12-Aug-04 which shows Door To Door Pricing and the minimums required.
Thank you very much,
Blane Wirth

Subject: Rigid patent issue

Dear Blane,

I would like to appologize that I have to share with you a "no good" news.

We just received a patent letter from Cequent. We are astonished about it and did not have any idea that these products were patented products till now.

As requested, we were informed that we should disclose q'ty and customer's name to the side of patent ownership. Could you please let me know if I should pass all the below information to Cequent or if there any advice from you on how to release the information? Our records show the quantities and items as below, please correct me if I made a mistake.

	Pending order Q'ty	Shipped Q'ty
Item#708000 receiver lock	/	960pcs
Item#708001 receiver lock	/	480pcs
Item#708002 receiver lock	900pcs	720pcs
Item#703016 2" A-Frame Coupler	/	546pcs
Item#703017 2-5/16" A-Frame Coupler	/	768pcs

=====

Since we are in this situation, we hope we could both work through it and minimize our both loss to the minimum. Through our engineer's hard effort, we have already redesigned the patent. We will supply you the redesigned products for your future orders. Please let me know if you would like to see our new samples.

Again, I am sorry for this unexpected inconvenience brought to you. I will wait for your advice.

Best Regards,

Ronna,

This is very troubling news.

I know that when you and Mr. David Wang visited Rigid Hitch this question was raised and you both assured me that you had done your due diligence in checking for patent infringement. This appears to not have been done.

What directive has been issued by Cequent with regards to previously sold products?

You most certainly need to disclose all purchasers of these products - Rigid Hitch included.

Cancel my pending order for the part# 708002 - qty 900 - I will expect you to not delay my shipment or in any way adjust my container quantities because of this issue. Order should be shipping very soon (55 days from 10.29.05) - please check its status and advise.

We will then need you to prepare a credit in the form of a bank draft on a US bank against our letter of credit in the amount of \$ 6,462.00 US dollars.

How these issues are handled will greatly affect our business and the business of many of your "new" hitch customers going forward.

I will await additional information from you - regarding status of our order and the issuance of our credit.

Respectfully,
 Blane Wirth

Subject: Patent Issue

blawir@rigidhitch.com

Dear Blane,

This is David. How are you doing? Wish everything goes well with you.

I am writing to you specially for the lock issue. We are in the process of actively defending the indictment from Cequent, as there are many unreasonable aspects. However, I am sorry for the trouble we brought to you.

As for these locks that are involved in the patent issue, we indeed made the investigation in order to find out whether they have the patent or not. We also specially consulted our customer with rich experience in this trade in order to confirm it. It's not our original desirability to make these troubles for you. Sorry for the inconvenience caused by this again.

No matter how the discussion with Cequent goes on, we would like to present that ITI is a responsible company to take care of our customers and business. Therefore, we agree with you to cancel the pending order for # 708002 with 900pcs, though these products are already in our warehouse and return the amount by transfer to you. We would like to pay the fees and take responsibilities caused by the patent issue, if needed. We hope the loss might be decreased to the minimum by our mutual efforts. We will let you be updated of the status of our discussing with Cequent.

Furthermore, we have redesigned the locks part # 708001 & 708002 against the patent locks. We hope that we have the chance to share our redesigned samples with you if you are interested in the future.

Again, I appologize for the inconvenience. Please let us know what we could do for you further.

Best Regards,

David Wang

Dear Blane,

How are you ? We called you yesterday, however, it's very pity that we could not talk with you as no one answers the phone. Hoping everything is going well with you.

As for the Patent Issue of receiver locks and couplers, it's being solved by our American lawyer and is smoothly getting along now. Furthermore, the goods of PO #102805BW will be on boat about on Jan. 20, 2006. We will keep you informed for the situations in time.

Any questions, please let us know.

Subject: Re: Shipping Status on PO#102805BW

Blane,

PO#102805BW was shipped on Feb 27. And we are preparing the shipping documents for the bank, but we found that as 900pcs #708002 was cancelled, then the actual amount will be \$6,462.00 less than the L/C amount of \$46,038.00. If we show the actual amount, then there will be discrepancy with the L/C, it will result that we will be charged \$300.00 from the bank. We are manufacturer, our profit margin is very lean, \$300.00 is very important for us. Our suggestion is that you revise the L/C amount to be \$46,083.40-\$6462.00=\$39621.40 as quickly as possible. Please kindly advise your thoughts.

THE UNIQUE MANUFACTURER IN CHINA PASS SAE J684 ON COUPLER

***We provide the most safe coupler with the best services at
the most competitive prices to market your products.***

Dear Blane,

It seems long time not get in touch, hope this mail find you well.

We take the liberty of recommending you our coupler series and hope there will be helpful to enrich your products line.

Firstly, we'd like to emphasis the safety of coupler, since we have got SAE approval by Third Party in US. That's most important point for the towing products.

Secondly, cost saving is your concern; we believe our price is most competitive for the same quality coupler.

Samples are available if you have any interested in these items and we are looking forward your comments.

主题: Towing Project -- ITI & Rigid

Dear Mr. Blane Wirth,

Thank you very much receiving my call yesterday, it was very nice to talk to you!

Attached please find our quotation. Meanwhile, to assist you with a quicker decision, we take the liberty to prepare samples specially for Rigid Hitch's evaluation today:

#703016 2" A-Frame Coupler

#708000 Receiver Lock

#705008 Tri-Ball Hitch

The samples will be available and express to you by July 10. Please do feel free to let us know if you want any other preferences. The samples will be free of charge for you. Do you have any international account number to collect the shipment (UPS, DHL, FedEx...)?

While presenting our project to you, we hope to establish our partnership by a brief introduction as below:

Though starting with hardware trading business, ITI has become a wide-scaled manufacturer of many products. Through years of efforts, we are proud to grow up as the foremost manufacturer in China of a most complete line of towing accessories.

ITI sells products through OEM to our customers, while many of them are among the best known and trusted in the industry. These products are innovatively produced to our customers' specific requirements, and then marketed using the customers' particular colors and brand names.

ITI has been serving automotive, marine and industrial market for years under many well-established trademarks. Since you are located in Burnsville, you may just talk to Mr. Bob Lusty in Northern Tool & Equipment directly by phone#: 952-895-6811 for reference information of ITI.

We understand you have been impacted by the steel increases on the steel products. Besides, we believe all distributors of Reese group are now forced to wait for longer deliveries. ITI will be glad if Rigid Hitch could take us as your alternative supplier to back you up under this situation. We look forward to working with your esteemed company and hope to devote our efforts for your long-term development.

Best regards and have a nice weekend!

Dear Blane,

It is very nice to have your e-mail this morning!

Re: Universal Coupler Lock

Sorry that as this design was filed into the patent, we can not offer it at this moment. We hope we can redesign it and quote you later.

Re: PLI

Thank you for the company name with adress. I will work with the insurance company to work out the certificate for Rigid Hitch and will express to you later. Can we do some help on your setup credit form with ITI? Thank you very much to welcome David Wang & Ronna Luo in your office next week.

Best Regards,

Ronna,

Hope you are doing well and your business is good.

I ask that you please quote on your part number 708006 Universal coupler lock.

Please add it to the quote you sent me on 12-Aug-04 which shows Door To Door Pricing and the minimums required.

Thank you very much,

Blane Wirth

Subject: Rigid patent issue

Dear Blane,

I would like to appologize that I have to share with you a "no good" news.

We just received a patent letter from Cequent. We are astonished about it and did not have any idea that these products were patented products till now.

As requested, we were informed that we should disclose q'ty and customer's name to the side of patent ownership. Could you please let me know if I should pass all the below information to Cequent or if there any advice from you on how to release the information? Our records show the quantities and items as below, please correct me if I made a mistake.

	Pending order Q'ty	Shipped Q'ty
Item#708000 receiver lock	/	960pcs
Item#708001 receiver lock	/	480pcs
Item#708002 receiver lock	900pcs	720pcs
Item#703016 2" A-Frame Coupler	/	546pcs
Item#703017 2-5/16" A-Frame Coupler	/	768pcs

=====

Snce we are in this situation, we hope we could both work through it and minimize our both loss to the minimum. Through our engineer's hard effort, we have already redesigned the patent. We will supply you the redesigned products for your future orders. Please let me know if you would like to see our new samples.

Again, I am sorry for this unexpected inconvenience brought to you. I will wait for your advice.

Subject: (EöDÇIáÊ¾-ÉÓÊ¼p¿ÉÄÜÊÇÀ»ØÓÊ¼p)Re: Rigid patent issue

Ronna,

This is very troubling news.

I know that when you and Mr. David Wang visited Rigid Hitch this question was raised and you both assured me that you had done your due diligence in checking for patent infringement. This appears to not have been done.

What directive has been issued by Cequent with regards to previously sold products?

You most certainly need to disclose all purchasers of these products - Rigid Hitch included.

Cancel my pending order for the part# 708002 - qty 900 - I will expect you to not delay my shipment or in any way adjust my container quantities because of this issue. Order should be shipping very soon (55 days from 10.29.05) - please check its status and advise.

We will then need you to prepare a credit in the form of a bank draft on a US bank against our letter of credit in the amount of \$ 6,462.00 US dollars.

How these issues are handled will greatly affect our business and the business of many of your "new" hitch customers going forward.

I will await additional information from you - regarding status of our order and the issuance of our credit.

Respectfully,
 Blane Wirth

blawir@rigidhitch.com

Dear Blane,

This is David. How are you doing? Wish everything goes well with you.

I am writing to you specially for the lock issue. We are in the process of actively defending the indictment from Cequent, as there are many unreasonable aspects. However, I am sorry for the trouble we brought to you.

As for these locks that are involved in the patent issue, we indeed made the investigation in order to find out whether they have the patent or not. We also specially consulted our customer with rich experience in this trade in order to confirm it. It's not our original desirability to make these troubles for you. Sorry for the inconvenience caused by this again.

No matter how the discussion with Cequent goes on, we would like to present that ITI is a responsible company to take care of our customers and business. Therefore, we agree with you to cancel the pending order for # 708002 with 900pcs, though these products are already in our warehouse and return the amount by transfer to you. We would like to pay the fees and take responsibilities caused by the patent issue, if needed. We hope the loss might be decreased to the minimum by our mutual efforts. We will let you be updated of the status of our discussing with Cequent.

Furthermore, we have redesigned the locks part # 708001 & 708002 against the patent locks. We hope that we have the chance to share our redesigned samples with you if you are interested in the future.

Again, I appologize for the inconvenience. Please let us know what we could do for you further.

Item#703017 2-5/16"A-Frame Coupler	/	768pcs

=====

Snce we are in this situation, we hope we could both work through it and minimize our both loss to the minimum. Through our engineer's hard effort, we have already redesigned the patent. We will supply you the redesigned products for your future orders. Please let me know if you would like to see our new samples.

Again, I am sorry for this unexpected inconvenience brought to you. I will wait for your advice.

Best Regards,

Ronna Luo

Dear Blane,

How are you ? We called you yesterday, however, it's very pity that we could not talk with you as no one answers the phone. Hoping everything is going well with you.

As for the Patent Issue of receiver locks and couplers, it's being solved by our American lawyer and is smoothly getting along now. Furthermore, the goods of PO #102805BW will be on boat about on Jan. 20, 2006. We will keep you informed for the situations in time.

Any questions, please let us know.

Best Regards,

Ronna Luo

Ronna,

This is very troubling news.

I know that when you and Mr. David Wang visited Rigid Hitch this question was raised and you both assured me that you had done your due diligence in checking for patent infringement. This appears to not have been done.

What directive has been issued by Cequent with regards to previously sold products?

You most certainly need to disclose all purchasers of these products - Rigid Hitch included.

Cancel my pending order for the part# 708002 - qty 900 - I will expect you to not delay my shipment or in any way adjust my container quantities because of this issue. Order should be shipping very soon (55 days from 10.29.05) - please check its status and advise.

We will then need you to prepare a credit in the form of a bank draft on a US bank against our letter of credit in the amount of \$ 6,462.00 US dollars.

How these issues are handled will greatly affect our business and the business of many of your "new" hitch customers going forward.

I will await additional information from you - regarding status of our order and the issuance of our credit.

Respectfully,
 Blane Wirth

Subject: Rigid patent issue!

Dear Blane,

I would like to appologize that I have to share with you a "no good" news.

We just received a patent letter from Cequent. We are astonished about it and did not have any idea that these products were patented products till now.

As requested, we were informed that we should disclose q'ty and customer's name to the side of patent ownership. Could you please let me know if I should pass all the below information to Cequent or if there any advice from you on how to release the information? Our records show the quantities and items as below, please correct me if I made a mistake.

	Pending order Q'ty	Shipped Q'ty
Item#708000 receiver lock	/	960pcs
Item#708001 receiver lock	/	480pcs
Item#708002 receiver lock	900pcs	720pcs
Item#703016 2" A-Frame Coupler	/	546pcs
Item#703017 2-5/16" A-Frame Coupler	/	768pcs

Subject: Re: Shipping Status on PO#102805BW

Blane,

PO#102805BW was shipped on Feb 27. And we are preparing the shipping documents for the bank, but we found that as 900pcs #708002 was cancelled, then the actual amount will be \$6,462.00 less than the L/C amount of \$46,038.00. If we show the actual amount, then there will be discrepancy with the L/C, it will result that we will be charged \$300.00 from the bank. We are manufacturer, our profit margin is very lean, \$300.00 is very important for us. Our suggestion is that you revise the L/C amount to be \$46,083.40-\$6462.00=\$39621.40 as quickly as possible. Please kindly advise your thoughts.

Ronna

THE UNIQUE MANUFACTURER IN CHINA PASS SAE J684 ON COUPLER

***We provide the most safe coupler with the best services at
the most competitive prices to market your products.***

Dear Blane,

It seems long time not get in touch, hope this mail find you well.

We take the liberty of recommending you our coupler series and hope there will be helpful to enrich your products line.

Firstly, we'd like to emphasis the safety of coupler, since we have got SAE approval by Third Party in US. That's most important point for the towing products.

Secondly, cost saving is your concern; we believe our price is most competitive for the same quality coupler.

Samples are available if you have any interested in these items and we are looking forward your comments.

Regards,
